Employment History

May 2016 - Present

Designer & Editor // Boeing

In addition to UX and layout work for the 737 MAX Interactive Training Manual, I design and code custom UI to work in iBooks for interactions that would otherwise not function.

Jan 2016 - Present

Adjunct Faculty // LWTech

I teach a night class of around 20 students at the bachelor level per quarter. We explore concepts and projects relating to design theory, leadership, product design, and portfolio building skills.

Jun 2014 - March 2016

UI & UX Designer // Palador Inc.

Working as a consultant I designed and implemented User Experiences and User Interfaces for large applications and websites. I had the privilege to work on projects for Microsoft, Abbvie, Johnson & Johnson, and Seattle DOT. I also self started and led the creation of the company's first design methodology.

Jan 2013 - Jun 2014

Designer // IEH Inc.

I was hired to work as a multidisciplinary designer, creating media for all platforms on and off the web. My experience spanned across the world working with international companies from Germany, Australia and the UK.

March 2010 - Present

Freelance Designer

I find and build relationships with clients and aim to ensure continued engagement after their projects are complete.
