It's 2018, I'm a Designer with experience in many industries. With no particular favorite, I embrace the broad range of subject matter I've been able to study. I'm passionate about helping people live better lives, even after putting their mobile device to sleep. I'm seeking opportunities where my experience and curiosity can be used to work toward a unified ecosystem of technology.

Experiences

APR 2017 - Present SR. UX DESIGNER | AFFIRMA

I lead clients and other designers through the UX process, build prototypes, code samples, and improve design process at Affirma.

JAN 2016 - Present DESIGN INSTRUCTOR | LWTECH

I teach an Introduction to Web & Mobile design class to about 20 students per quarter. I lead them through the design process up to the dev handoff.

APR 2016 - APR 2017 DESIGNER & EDITOR | BOEING

In addition to UX and layout work for the 737 MAX Interactive Training Manual, I design and code custom UI in iBooks.

JUN 2014 - MAR 2017 UX/UI DESIGNER | PALADOR

I designed and coded UI for applications and websites. I also dabbled in physical packaging projects and 3D printing.

JAN 2013 - JUN 2014 DESIGNER | IEH INC.

I was a multimedia designer, creating materials for all platforms on and off the web. My experience spanned across the world working with international companies from Germany, Australia, and the UK.

JAN 2010 - Present WEB DESIGNER | FREELANCER

Through networking and referrals, I've built a small business. I do the design work, before hiring out the development work.
